The Sub-Fund may also invest in units or shares of other UCITS and UCITS ETFs.

Furthermore, the Sub-Fund may invest up to 30% of its NAV in UCITS, UCITS ETFs and/or UCITS compliant transferable securities backed by or linked to the performance of commodities, their indices, or otherwise exposed to the commodities sectors indices.

This is an accumulator Fund, which is designed to offer you growth in the fund rather than income, so any income generated will be reinvested within the fund, raising the value of your investment.

The Fund is actively managed and it is not managed with reference to a benchmark.

Risk Factors: The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (See “What are the costs?” below).

Intended Retail Investor: The Investor Shares are available to Retail investors. The Fund is considered as a medium to long term investment and may be suitable for investors who can set aside a certain amount of capital for a three-to-five-year period. You may sell your investment on most working days.

Term: The Fund has no maturity date but can be dissolved and its collective investment scheme licence surrendered to the MFSA in accordance with and subject to the applicable provisions of the Company’s offering documents. The Manager may not terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

Additional Information:

The Fund’s Depository Bank is Sparkasse Bank Malta p.l.c.

The Sub-Fund is a segregated portfolio whose assets and liabilities are to be treated as a patrimony separate from the assets and liabilities of each other sub-fund and of the Company. Please refer to the Prospectus for further details.
