Website of the manufacturer: www.carmignac.com

Date of production of the KID : 24/10/2023

WHAT IS THIS PRODUCT?

Type: Carmignac Profil Réactif 75 is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS)

Objective: The fund aims to generate a positive annual return while keeping annual volatility below that of its reference indicator. The fund is managed on a discretionary basis by the fund manager, who pursues an active asset allocation policy, mainly involving funds invested in international equities and bonds. 2 The reference indicator comprises 50% MSCI AC WORLD NR (USD) index, calculated with net dividends reinvested, and 50% ICE BofA Global Broad Market Index Euro Hdg. It is rebalanced each quarter.

Between 50% and 100% of the fund's assets are invested in investment funds, primarily Carmignac funds or, failing that, external funds. It may regularly invest in funds specialised in emerging markets. The main performance drivers are: (i) Equities: Up to 75% of the fund's net assets may be exposed to equity funds or equities traded on Eurozone and/or international markets, including a significant portion (up to 100% of the equity portfolio) in emerging economies; (ii) Fixed income products: Primarily through investment funds, up to 100% of the fund's net assets may be invested in transferable debt securities (short- and medium-term), money market instruments, and fixed or floating rate government or corporate bonds, which may be linked to inflation in the Eurozone and/or international markets. Up to 100% of the portfolio of debt securities and money market instruments may be invested in emerging market debt securities and money market instruments; (iii) Currencies: The fund may use derivatives to gain exposure to, hedge against, or pursue relative value strategies on, currencies.

The decision to buy, hold or sell debt securities will not automatically and solely depend on their rating but also an internal analysis based mainly on return, credit rating, liquidity and maturity criteria.

The fund's investment universe is totally independent of the reference indicator, the individual constituents of which are not necessarily representative of the assets invested in by the fund.

The fund's investment strategy is not dependent on the indicator. Therefore, the fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

Term: The fund was launched on 1 June 1999 for a period of 99 years, except in the cases of early dissolution or extension.

Intended retail investor: Due to the fund's equity market exposure, and its bond market exposure to a lesser extent, this fund is suitable for investors who do not plan to withdraw their money within 5 year(s), and whose goal is to grow their investment without any capital guarantee.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 16:30 CET/CEST, and are executed on the next business day using the previous day's NAV.

The Depositary of the sub-fund is BNP Paribas Securities Services, Luxembourg branch.

These units are accumulation units.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com, directly from the manufacturer or on the website www.fundinfo.com. Information on past performance for the last 10 years, where this data is available, and calculations of monthly past performance scenarios are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

← Lower risk Higher risk →

Risks not sufficiently considered by the indicator include:

- Counterparty risk: the fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.

- Liquidity risk: the markets in which the fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the fund may be caused to liquidate, initiate or modify its positions.

The recommended holding period is 5 year(s).

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the fund is denominated in a currency other than the official currency of the country where the fund is being marketed, the return, when expressed in the official currency of the country where the fund is being marketed, may change depending on currency fluctuations.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The returns you obtain from this product depend on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended holding period:		5 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8 110 EUR	6 450 EUR
	Average return each year	-18.90%	-8.40%
Unfavourable	What you might get back after costs	8 110 EUR	8 370 EUR
	Average return each year	-18.90%	-3.50%
Moderate	What you might get back after costs	10 200 EUR	11 420 EUR
	Average return each year	2.00%	2.69%
Favourable	What you might get back after costs	12 900 EUR	14 110 EUR
	Average return each year	29.00%	7.13%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

Your maximum loss would be that you will lose all your investment.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- The unfavourable scenario occurred for an investment between October 2021 and December 2022.
- The moderate scenario occurred for an investment between June 2014 and June 2019.
- The favourable scenario occurred for an investment between June 2016 and June 2021.

WHAT HAPPENS IF CARMIGNAC GESTION IS UNABLE TO PAY OUT?

The fund is a co-ownership of financial instruments and deposits separate from the management company. In the event of the latter's default, the product's assets held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the fund.

There is no compensation or guarantee system in place that would fully or partially offset this loss.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 EUR. The figures are estimates and may change in the future.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

Cost over time

	If you exit after 1 year	If you exit after 5 years
Total costs	749 EUR	2 593 EUR
Annual cost impact (*)	7.5%	4.4% each year

*This table illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2,7% before costs and -1,7% after costs."

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4,00 % of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.	Up to 400 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2,86% of the value of your investment per year. This estimate is based on actual costs over the past year.	286 EUR
Transaction costs	0,51% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	51 EUR
Incidental costs taken under specific conditions		
Performance fees	20,00% max of the outperformance once performance since the start of the year exceeds that of the reference indicator, even if negative, and if no past underperformance still needs to be offset. The actual amount will vary depending on how well your investment performs. The estimate of aggregated costs above includes the average for the last five years.	10 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Given the fund's exposure to the equity market, and to the bond market to a lesser extent, the recommended investment period is more than 5 year(s).

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible daily. In exceptional circumstances, your right to request the redemption of your investment may be suspended.

HOW CAN I COMPLAIN?

If you have any complaints about this product or the manufacturer's conduct, you can use different means of communication: you can lodge them by email to complaints@carmignac.com, by post to 24 Place Vendôme, 75001 Paris, France, or by telephone on (+33) 01 42 86 53 35.

In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com.

If there is no response within two months or if you consider the response provided by Carmignac Gestion unsatisfactory, you can contact the AMF Ombudsman by letter or using the online form (<https://www.amf-france.org/en/amf-ombudsman>).

OTHER RELEVANT INFORMATION

The fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com.

This fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S and FATCA. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor.

The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
