June 15, 2018

Dear Shareholder,

This report provides an update for AB SICAV I (the “Fund”) for the annual reporting period ended May 31, 2018.

During the 12-month period ended May 31, 2018, global equities rallied to new highs before volatility returned to the market. Emerging-market stocks outperformed their US and non-US counterparts but began to experience some weakness as the US dollar strengthened, interest rates moved higher and risk aversion increased. Growth stocks outperformed value stocks, in terms of style, and small-cap stocks outperformed their large-cap peers.

Early in the period, the election of French president Macron helped market sentiment in Europe. Investors generally looked past geopolitical tensions between the US and North Korea, instead focusing on tax reform in the US. Corporate earnings and economic data were mostly better than expected. However, positive performance was tempered as concerns about rising inflation and interest rates, and tighter global monetary policies, returned to the market. Fears of a burgeoning trade war caused by the actions of the US and China also added to stock market volatility, and at the end of the period, political turmoil in Italy further weighed on investor sentiment.

Fixed-income markets had mixed to positive performance, despite a spike in volatility in the last months of the period. Developed-market treasuries rallied, outperforming the positive returns of emerging-market local-currency government bonds and global high yield, while investment-grade corporates fell. Developed-market yields generally either rose across the yield curve (particularly in Italy and the US) or flattened, with shorter maturities rising while longer maturities ended the period lower. Emerging-market debt had more mixed performance, as some sectors were helped by a multiyear high in oil prices and an improving global growth story, while higher global interest rates weighed on others (bond yields move inversely to price).

The US Federal Reserve raised interest rates three times in the period and began to formally reduce its balance sheet, as widely expected. Meanwhile, the European Central Bank started to scale back asset purchases and announced that the reduction would continue through at least September 2018.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein (Luxembourg) S.à r.l., the Management
Company of the Fund

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of May 31, 2018. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

* 6 month period ending May 31, 2018.

Return calculated from inception date on:

- (1) May 15, 2018
- (2) November 15, 2017

* Termination date

(a) Represents entire or partial securities out on loan. See Note J for securities lending information.

(b) Floating Rate Security. Stated interest rate was in effect at May 31, 2018.

(c) Securities are perpetual and, thus, do not have a predetermined maturity date. The date shown, if applicable, reflects the next call date.

(d) Defaulted.

(e) Pay-In-Kind Payments (PIK).

(f) Fair valued as determined in accordance with procedures established by and under the general supervision of the Management Company's Board of Managers and the Board of Directors.

(g) Overnight deposit.

- (a) Pay-In-Kind Payments (PIK).
- (b) Securities are perpetual and, thus, do not have a predetermined maturity date. The date shown, if applicable, reflects the next call date.
- (c) Floating Rate Security. Stated interest rate was in effect at May 31, 2018.
- (d) Position, or a position thereof, has been segregated to collateralize derivatives.
- (e) One contract relates to 100 shares.
- (f) This position or a portion of this position represents an unsettled loan purchase. The coupon rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate ("LIBOR") plus a premium which was determined at the time of purchase.
- (g) Overnight deposit.

- Fair valued as determined in accordance with procedures established by and under the general supervision of the Management Company's Board of Managers.
- Defaulted.
- Pay-In-Kind Payments (PIK).
- Securities are perpetual and, thus, do not have a predetermined maturity date. The date shown, if applicable, reflects the next call date.
- Position, or a position thereof, has been segregated to collateralize derivatives.
- Floating Rate Security. Stated interest rate was in effect at May 31, 2018.
- This position or a portion of this position represents an unsettled loan purchase. The coupon rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate ("LIBOR") plus a premium which was determined at the time of purchase.
- Overnight deposit.
- One contract relates to 1 share.

NOTE A: General Information

AB SICAV I (the “Fund”) is an open-ended investment company with variable capital (*société d’investissement à capital variable*) incorporated with limited liability under the laws of the Grand Duchy of Luxembourg on June 8, 2006 and registered under Part I of the law of December 17, 2010 on undertakings for collective investment (as amended) (the “Law of 2010”). The Fund qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009 (as amended).

The Fund is structured as an “umbrella fund” comprising separate pools of assets (each a “Portfolio”).

The Fund offers various Classes of Shares of each of its Portfolios. All Shares of the same Class have the same rights as to distributions and redemptions.

AllianceBernstein India Growth (Mauritius) Limited, a Mauritian subsidiary, was incorporated under the laws of Mauritius (the “Mauritian Subsidiary”) to make investments for India Growth Portfolio in Indian securities, in accordance with the investment objectives and policies of India Growth Portfolio. The Mauritian Subsidiary is a public company limited by shares and meets the definition of an Investment Company, as defined under Section 2 of the Mauritius Companies Act 2001. It had been issued a Category 1 Global Business License by the Financial Services Commission under the Financial Services Act 2007. It is wholly-owned by the India Growth Portfolio and issues redeemable shares only to such Portfolio. The results of the Mauritian Subsidiary are included in the financial statements of the Fund. On January 8, 2018, it was resolved by the Board of Directors to unregister the Mauritian Subsidiary with the intent to liquidate. The Investment Manager is actively evaluating an efficient plan in which to proceed with such liquidation.

On May 10, 2017, it was resolved by the Board of Directors to liquidate the portfolio AB SICAV I – Unconstrained Bond Portfolio, effective June 26, 2017.

On September 7, 2017, it was resolved by the Board of Directors to approve the creation of the following new

portfolios within the Fund: Asia Low Volatility Equity Portfolio, Emerging Market Debt Total Return Portfolio, All Market Total Return Portfolio and Alternative Risk Premia Portfolio. Such portfolios commenced operations on October 31, 2017, November 17, 2017, November 15, 2017 and December 12, 2017, respectively.

On October 3, 2017, it was resolved by the Board of Directors to liquidate the portfolio AB SICAV I – Emerging Consumer Portfolio, effective November 3, 2017.

On October 17, 2017, the sole shareholder of AB SICAV I – Credit Alpha Portfolio introduced redemption request representing the total assets of the Portfolio. Such portfolio was liquidated, effective as of October 17, 2017.

The portfolio AB SICAV I – Asia Discovery Equity Portfolio was fully redeemed. The last NAV was calculated on November 3, 2017.

On April 30, 2018, it was resolved by the Board of Directors to approve the creation of the following new portfolios within the Fund: All China Equity Portfolio, Financial Credit Portfolio, China Equity Portfolio and China Bond Portfolio. All China Equity and Financial Credit Portfolio commenced operations on May 11, 2018 and May 15, 2018, respectively.

It was resolved by the Board of Directors to approve the transfer of all assets and liabilities (the “Restructuring”) of AB FCP I – European Equity Portfolio, AB FCP I – Eurozone Equity Portfolio, AB FCP I – American Growth Portfolio and AB FCP I – All Market Income Portfolio into respectively AB SICAV I – European Equity Portfolio, AB SICAV I – Eurozone Equity Portfolio, AB SICAV I – American Growth Portfolio and AB SICAV I – All Market Income Portfolio. The Restructuring was effective as of May 4, 2018 at the exchange ratio of 1:1.

As of May 31, 2018, cash balance for Asia Discovery Equity Portfolio, Unconstrained Bond Portfolio, Emerging Consumer Portfolio, Credit Alpha Portfolio amounted to \$39,997, \$12,345, \$2,103, \$60,874, respectively.

The following table lists each Portfolio’s commencement of operations as well as Share Classes seeded as of May 31, 2018:

NOTE B: Significant Accounting Policies

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements. The following is a summary of significant accounting policies followed by the Portfolios.

1. Valuation

1.1 Investments in Securities

Securities listed on a stock exchange or traded on any other regulated market are valued at the last sale price on such exchange or market or, if there has been no sale on such day, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last sale price on the stock exchange or market which constitutes the principal market for such security is used.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by, and under the general supervision of, the Management Company’s Board of Managers.

Fair valuation procedures are designed to adjust closing market prices of securities to reflect what is believed to be the fair value of those securities at the Portfolio’s Valuation Point.

When fair valuation procedures are employed with respect to a particular security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security’s latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed,

the prices of individual securities utilized to calculate the Portfolio’s Net Asset Value (“NAV”) may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For portfolio securities primarily traded on U.S. and Indian exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets, excluding India, because, among other reasons, these markets close well before the Portfolio’s Valuation Point. Between the close of these markets and the relevant Portfolio’s Valuation Point, significant events including broad market moves may occur. In particular, events in the U.S. market on a trading day after the close of these other markets may affect the value of the Portfolio’s securities.

Fixed income securities (i), securities not listed on any stock exchange, or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security’s fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established

by, and under the general supervision of, the Management Company's Board of Managers.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market price by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the Valuation Committee (the "Committee") must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates.

Over-the-counter ("OTC") swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

1.2 Warrant Valuation

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

1.3 Financial Futures Contracts

Initial margin deposits are made upon entering into futures contracts. During the year the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract. Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used.

1.4 Forward Foreign Currency Contracts

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

1.5 Options Purchased and Options Written

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign

currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options purchased by a Portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

1.6 Investments in other UCIs

Investments in other Undertakings for Collective Investments ("UCIs") are valued at the last available net asset value for the UCI in question.

1.7 Swap Agreements

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in "Unrealized appreciation (depreciation) on swaps" in the Statement of Assets and Liabilities and "Change in unrealized gains and (losses) on swaps" in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as a "Realized gain or (losses) on swaps" in the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds on the Statement of Assets and Liabilities and are amortized in a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in "Swap income" until the position is sold, thereafter the amortized upfront premiums are included within "Realized gains and (losses) on swaps". On all other swap types the amortized upfront premiums are included within "Realized gains and (losses) on swaps". Fluctuations in the value of swap contracts are recorded as a component of "Changes in unrealized gains and (losses) on swaps" in the Statement of Operations and Changes in Net Assets.

"Upfront premiums paid/(received) on swap contracts" disclosed in the Statements of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

2. Organization Expenses

The organization expenses for the following Portfolios are being amortized on a straight-line basis through the following dates:

AB SICAV I-	Dates
Multi-Sector Credit Portfolio	November 2020
AB ESG Responsible Global Factor Portfolio	September 2021
Asia Income Opportunities Portfolio	September 2021
Asia Discovery Equity Portfolio	November 2017
Global Income Portfolio	May 2022
Asia Low Volatility Equity Portfolio	October 2022
Emerging Market Debt Total Return Portfolio	November 2022
All Market Total Return Portfolio	November 2022
Alternative Risk Premia Portfolio	December 2022
All China Equity Portfolio	May 2023
Financial Credit Portfolio	May 2023

The organization expenses of other existing Portfolios have been fully amortized in prior years.

3. Allocation Method

Income and expenses (except for class-specific management and distribution fees) for the “fixed income” and “balanced” Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class’ proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all.

Income and expenses for the “equity” Portfolios are allocated on a daily basis by each class’ value of their proportionate shares outstanding.

For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding.

Class specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged/allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the Class S shares based upon minimum shareholder activity and account level requirements.

4. Currency Translation

Values expressed in a currency, other than the currency in which a Portfolio is denominated, are translated at the average of the last available buying and selling price. Transactions in each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the Combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the year. Exchange rates applied in the financial statements are: spot rate 0.8555 and average rate 0.8406 for USD to EUR, spot rate 6.4118 and average rate 6.5274 for USD to CNH and spot rate 0.7525 and average rate 0.7447 for USD to GBP.

The “Currency translation adjustment” presented in the Combined Statement of Operations and Changes in Net Assets is the result of the difference in exchange rates used to translate the Combined Statement of Assets and Liabilities and the Combined Statement of Operations and Changes in Net Assets.

NOTE C: Taxes

As a Luxembourg *société d’investissement à capital variable* (SICAV), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg.

The Fund is subject to the Luxembourg *taxe d’abonnement* at the rate of 0.05% per annum calculated and payable quarterly, on the aggregate total net assets on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the meaning of Article 174 of the Law of 2010. Dividends, interest and capital gains on Portfolio securities issued in certain countries may be subject to withholding or capital gains taxes imposed by such countries.

5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis. The Fund accretes discounts and amortizes premiums as adjustments, if applicable, to interest income. Investment transactions are recorded on trade date plus one day.

6. Estimates

The preparation of Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting year. Actual results may differ from those estimates.

7. Swing Pricing Adjustment

The Board of Directors has communicated to all shareholders of the Fund to implement a Net Asset Value (NAV) Adjustment Policy, also known as “swing pricing” policy, effective from November 2, 2015. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceeds a threshold specified by the Swing Pricing Committee under the supervision of the Board of Directors. When swing pricing is applied, the NAV of the relevant Portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the Portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a Portfolio brought on by transactions in the Portfolio’s shares.

The Net Asset Value per Share and the total net assets as disclosed in the Statistical Information are the published Net Asset Value per Share and the total net assets, whereas the total net assets disclosed in the Statement of Net Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total Net Asset Value excluding any period end swing adjustments.

As of May 31, 2018, the Net Asset Value and the Net Asset Values per Share of the following Portfolios were swung:

- International Technology Portfolio;
- European Equity Portfolio.

India

Income distributions to the Mauritian Subsidiary by way of interest from its investments in debt securities of Indian companies should be subject to withholding tax at the rate between 5% to 20%. Dividends paid to the Mauritian Subsidiary from its investment in equity securities of Indian companies should not be subject to withholding tax. The Governments of India and Mauritius have signed a Protocol for amending the tax treaty between India and Mauritius. The renegotiation of the Treaty clarifies the applicability of a general anti-avoidance rule (“GAAR”) to a Mauritius subsidiary deemed a tax resident of Mauritius. As per the Protocol, India shall have the right to tax capital gains arising from disposition of shares acquired on or

after April 1, 2017 in a company resident in India, with shares acquired on or before March 31, 2017 being grandfathered as exempt from capital gains taxation.

People's Republic of China (PRC)

Corporate Income Tax ("CIT")

By investing in shares of PRC resident enterprises (including China A-, B- and H-Shares), RMB denominated corporate and government bonds, securities investment funds and warrants listed on the PRC stock exchanges or PRC inter-bank bond markets, a Portfolio may be subject to withholding income tax ("WIT") and other taxes imposed in the PRC.

Lacking specific guidance, it is uncertain whether the RQFII or the relevant investing Portfolios would be considered the taxpayer with respect to the PRC-sourced income derived from the investment in bonds, shares and other securities in the PRC.

In the event the RQFII were considered to be the taxpayer, any PRC taxes levied against the RQFII would be reimbursed and ultimately borne by the relevant Portfolios of the Fund.

If the relevant Portfolios are deemed to be the taxpayer, then such Portfolios will be subject to PRC CIT at 25% on its worldwide taxable income if it is considered to be a tax resident enterprise of the PRC. If the Portfolio is considered to be a non-tax resident enterprise with an establishment or place of business ("PE") in the PRC, the PRC sourced profits attributable to that PE would be subject to CIT at 25%.

Under the PRC CIT Law effective from 1 January 2008, a foreign enterprise without a PE in the PRC will generally be subject to a WIT at the current rate of 10% on its PRC sourced income, including but not limited to passive income (e.g. dividends, interest, gains arising from transfer of assets, etc.), subject to the application of treaty relief.

The Investment Manager intends to manage and operate the Portfolios in such a manner that the Portfolios and the Fund not be treated as a tax resident enterprise of the PRC or a nontax resident enterprise with a PE in the PRC for CIT purposes, although this cannot be guaranteed. As such, it is expected that the Portfolios should only be subject to WIT at 10% to the extent the Portfolio directly derives PRC sourced income in respect of its investment in bonds, shares and other securities in the PRC.

NOTE D: Distributions

The Board of Directors (hereinafter the "Board") does not currently intend to pay dividends with respect to the shares for the following Portfolios: International Technology Portfolio, US Small and Mid-Cap Portfolio, Select Absolute Alpha Portfolio, Unconstrained Bond Portfolio, Global Factor Portfolio, Credit Alpha Portfolio, Multi-Sector Credit Portfolio, AB ESG Responsible Global Factor Portfolio, Asia Discovery Equity Portfolio, All Market Total Return Portfolio and All China Equity Portfolio. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.

For International Health Care Portfolio:

- For class A, AX, B, BX, C, I, S and S1 shares, the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective net asset value of the Shares.

Equity investments

With the approval from the PRC State Council, the PRC State Administration of Taxation, the PRC Ministry of Finance and the China Securities Regulatory Commission have jointly issued Caishui [2014] 79 ("Circular 79") to clarify the WIT treatment with respect to gains derived by QFIIs and RQFIIs from the disposal of equity investments, including shares in PRC enterprises.

According to Circular 79, QFIIs and RQFIIs are temporarily exempt from WIT with respect to gains derived from the disposal of equity investments, including shares in PRC enterprises (e.g. A-Shares and B-Shares), via the QFII or RQFII investment quota, effective from November 17, 2014.

PRC tax disclosure regarding Stock Connect

In addition to investing in A-Shares via the RQFII quota of the RQFII Holder, the Fund may gain exposure to A-Shares through Stock Connect, which has commenced trading as of November 17, 2014.

With the approval from the PRC State Council, the PRC State Administration of Taxation, the PRC Ministry of Finance and the CSRC have jointly issued Caishui [2014] 81 ("Circular 81") to clarify the PRC tax treatment regarding China Connect Securities. Circular 81 is effective on November 17, 2014.

According to Circular 81, the Fund is subject to the following PRC income tax treatment with respect to the Northbound Trading under Stock Connect (i.e. trading of certain A-Shares on the SSE):

- Temporarily exempt from PRC WIT with respect to gains derived from the disposal of A-Shares.
- Subject to PRC WIT at 10% with respect to dividends received from A-Shares.
- Subject to PRC VAT at 6% with respect to interest received from non-government bonds.
- Subject to PRC SD at 0.1% with respect to the sale of A-Shares (i.e. the purchase of A-Shares is not subject to PRC SD).

Investors should note that Stock Connect has limited or no history, and, accordingly, the taxation rules applicable to China Connect Securities traded on Stock Connect are not long established and subject to change in the future. Investors should seek advice from their professional tax advisors with any questions regarding China Connect Securities.

- For class AD and ED shares, the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Global Real Estate Securities Portfolio:

- For class A, B, C, I, 1, 2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.

- For class AD, BD, ID and SD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class 1D shares, the Board intends to declare and pay annually dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of shares. To the extent the net income and net realized profits attributable to these shares exceed the amount declared payable, the excess return will be reflected in the respective Net Asset Value of such shares. Dividends will be automatically reinvested in further shares of the same class unless the Shareholder elects to receive cash by so instructing the Management Company in writing. Dividends for reinvestment will be paid to the Management Company which will reinvest them in the purchase of shares, at the offer price at that date or such other price as may from time to time be agreed, on the dividend payment date. A statement of reinvestment will be sent to the Shareholder. Dividends which are not reinvested will be sent by post or other means on the dividend payment date. The Fund cannot accept liability for non-delivery or late delivery of dividends.

For Thematic Research Portfolio:

- For class SD shares the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share class, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For all shares except SD shares (and corresponding H shares), the Board currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.

For India Growth Portfolio:

- For class A, AX, B, BX, C, I, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares. At the discretion of the Board, special dividends may be declared.
- For class AD, BD and SD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s

original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Euro High Yield Portfolio:

- For class A, B, C and I shares (and corresponding H shares), the Board intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of shares.
- For class AT, BT, CT, IT, NT and ZT shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of shares.
- For class AA and BA shares (and corresponding H shares), the Board intends to declare and make monthly distributions.
- For class AR shares the Board intends to declare and make annual distributions.
- For class AM shares, the Board intends to declare and pay monthly distributions. The Board intends to maintain a fixed distribution of 7% (annualized) per share for AM shares. As such, distributions may come from net income, realized and unrealized gains and capital attributable to the relevant class. Distributions from capital may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class. The Board will periodically review the level of income and expenses at the AM class level, along with the fixed distribution percentage and may decide to decrease or increase the fixed distribution percentage.

- For class A2, AB, B2, C2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.

For Emerging Markets Multi-Asset Portfolio:

- For class A, B, C, I, N, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.
- For class AD, BD, ED, ID, SD and S1D shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized capital gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class SQD shares (and corresponding H shares), the Board intends to declare and pay quarterly distributions. The Board intends to maintain a stable distribution rate per share for such share classes and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized capital gains and capital attributable to the relevant class.

For RMB Income Plus Portfolio:

- For class A2, C2, I2, S, S1 and W2 shares, the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AT, CT, IT and ZT shares the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized capital gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AR shares, the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

For Short Duration High Yield Portfolio:

- For class A2, B2, C2, I2, N2, S, S1 and W2 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AT, BT, CT, IT and NT shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized capital gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AA and BA shares (and corresponding H shares), the Board intends to declare and make monthly distributions. For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. The Board intends to maintain a stable distribution rate per share for such share classes. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For class AM shares, the Board intends to declare and pay monthly distributions. The Board intends to maintain a fixed distribution of 5% (annualized) per share for AM shares. As such, distributions may come from net income, realized and unrealized gains and capital attributable to the relevant class. Distributions from capital may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the

relevant class. The Board will periodically review the level of income and expenses at the AM class level, along with the fixed distribution percentage and may decide to decrease or increase the fixed distribution percentage.

- For class S1QD shares (and corresponding H shares), the Board intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of shares.

For Select US Equity Portfolio:

- For class A, AW, C, I, N, S, S1, F and W shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. Distributions may come from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.

For Global Plus Fixed Income Portfolio:

- For class A2, B2, C2, I2, 1, 2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AT, BT, CT, IT and 1D shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of shares.
- For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For class SA shares, the Board intends to declare and make monthly distributions.
- For class IK shares (and corresponding H shares), the Board intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to the relevant class of Shares.
- For class S1QD shares (and corresponding H shares), the Board intends to declare and pay quarterly distributions. The Board intends to maintain a stable payout per share for S1QD shares (and corresponding H shares).

For Emerging Market Local Currency Debt Portfolio:

- For class AA and SA shares, the Board intends to declare and make monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes.
- For class A2, B2, I2, S and S1 shares (and corresponding H

shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.

- For class AT, BT, CT, IT and ZT shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized capital gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

For Asia Pacific Local Currency Debt Portfolio:

- For class A2, B2, C2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AA shares (and corresponding H shares), the Board intends to declare and make monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For class AT, BT, CT, IT and ZT shares (and corresponding H shares) the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized capital gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Emerging Market Corporate Debt Portfolio:

- For class A2, B2, C2, I2, N2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AA and BA shares (and corresponding H shares), the Board intends to declare and make monthly distributions.

The Board intends to maintain a stable distribution rate per share for such share classes. For class AR shares, the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

- For class AM shares, the Board intends to declare and pay monthly distributions. The Board intends to maintain a fixed distribution of 5% (annualized) per share for AM shares. As such, distributions may come from net income, realized and unrealized gains and capital attributable to the relevant class. Distributions from capital may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class. The Board will periodically review the level of income and expenses at the AM class level, along with the fixed distribution percentage and may decide to decrease or increase the fixed distribution percentage.
- For class AT, BT, CT, IT, NT and ZT shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of shares.
- For class S1QD shares (and corresponding H shares), the Board intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of shares.

For US High Yield Portfolio:

- For class A2, C2, I2, N2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.
- For class AA shares (and corresponding H shares), the Board intends to declare and make monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. Distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For class AT, CT, IT, NT and ZT shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of shares.

For RMB Income Plus II Portfolio (USD):

- For class A2, C2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AT shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board

intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

- For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

For Low Volatility Equity Portfolio:

- For class A, C, I, N, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AD and SD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. Distributions may come from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.

For Emerging Markets Equity Portfolio:

- For class A, C, F, I, N, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares will be reflected in the respective NAV of the Shares.
- For class AD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions.

For Emerging Consumer Portfolio:

- For class A, I, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.
- For class AR shares, the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Diversified Yield Plus Portfolio:

- For class A2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.
- For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per share of the relevant classes will be reduced by such fees and expenses.
- For class SQD shares (and corresponding H shares), the Board intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of shares.

For Global Equity Income Portfolio:

- For class A, B, C, I, N, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the NAV of the shares.
- For class AD, BD, CD and ND shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Concentrated US Equity Portfolio:

- For class A, C, N, I, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.

- For class SD shares, the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AR shares, the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Concentrated Global Equity Portfolio:

- For class A, C, I, N, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.
- For class AD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes.
- For class AR shares, the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Global Core Equity Portfolio:

- For class A, C, N, I, S, S1, S1X, IX, RX and XX shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the shares are reflected in the respective NAV of the shares.
- For class SD shares, the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AR shares, the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Asia Income Opportunities Portfolio:

- For class A and I shares (and corresponding H shares), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of shares.
- For class AT and IT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of shares.
- For class AA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.
- For class A2, I2, S and S1 shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Global Income Portfolio:

- For class AT and IT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AA shares (and corresponding H shares), the Board intends to declare and make monthly distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.
- For class A2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Asia Low Volatility Equity Portfolio:

- For class A, I, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to these Shares will be reflected in the respective Net Asset Value of these Shares.
- For class AD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction of fees and expenses)], realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Emerging Market Debt Total Return Portfolio:

- For class A2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AT and IT shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class S1D (and corresponding H shares), the Board intends to declare and pay annual distributions equal to all or substantially all of the Portfolio's net income and net realized/unrealized profits attributed to such class of shares, to the extent no return of capital is included.

For Alternative Risk Premia Portfolio:

- For class F, I, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class SQD and S1QD shares (and corresponding H shares), the Board has discretion to declare and pay dividends based on the Portfolio's net income attributable to each class of Shares. The Board also may determine if and to what extent dividends paid include realized capital gains and/or are paid out of capital, attributable to the relevant class of Shares. To the extent the net income and net realized profits attributable to these Shares exceed the amount declared payable, the excess return will be reflected in the respective Net Asset Value of such Shares. Payment can be made out of the Portfolio's net income and, if the net income is exhausted, out of unrealized capital gains or capital.

For European Equity Portfolio:

- For class A, AXX, B, C, I, S, S1 and S1X shares (and corresponding H shares), the Board currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AD, BD and SD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Eurozone Equity Portfolio:

- For class A, AX, AXX, B, BX, C, CX, I, IX, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AR shares, the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For American Growth Portfolio:

- For class A, AX, AXX, B, BX, C, I, N, S, S1 and SK shares (and corresponding H shares), the Board currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.
- For class AD, BD, ED and SD shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Board intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For All Market Income Portfolio:

- For class AD, BD, CD, ID and ND shares (and corresponding H shares), the Board intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Board intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class AX, BX, CX and IX shares, the Board intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class A, B, C, AXX, A2X, B2X, C2X, I, N and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For Financial Credit Portfolio:

- For class AT, IT and ZT shares (and corresponding H shares), the Board intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio’s net income attributable to each class of Shares.
- For class A2, I2, S and S1 shares (and corresponding H shares), the Board currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

The Board also may determine if and to what extent dividends paid include realized capital gains and/or are paid out of capital, attributable to the relevant class of shares. To the extent the net income and net realized profits attributable to these shares exceed the amount declared payable, the excess return is reflected in the respective NAV of such shares. Distributions may be automatically reinvested at the election of the Shareholder.

NOTE E: Management Fee and Other Transactions with Affiliates

The Fund pays AllianceBernstein (Luxembourg) S.à r.l. (the “Management Company”) a management fee. Under the terms of the Investment Management Agreement from the management fee earned, the Management Company pays an investment management fee to AllianceBernstein L.P. (the “Investment Manager”).

The Management Company has voluntarily agreed to bear certain expenses to the extent necessary to limit total operating expenses on an annual basis.

These limitations have been set as follows (limitations expressed as a percentage of the average daily net assets):

Expenses borne by the Management Company are included in the Statement of Operations and Changes in Net Assets under “Expense reimbursed or waived”. Reimbursement receivable is included in the Statement of Assets and Liabilities under “Other receivables” or in “Accrued expenses and other liabilities”.

The Fund also pays its Management Company, a management company fee. Specific share classes of each Portfolio will pay the Distributor, a distribution fee, which is compensation for providing distribution related services to the Fund with respect to such shares.

All of the aforementioned fees are accrued at an annual rate on the average daily net assets of each Portfolio and paid monthly.

A list of each Portfolio’s annual rate for their applicable fees can be found in Table 1 (Page 367 to 386). Also, Class B, BD, BX and each applicable H shares are subject to a contingent deferred sales charge at rates of between 0.00% and 3.00% or between 0.00% and 4.00%. Class BA, B2, BT, ED and each applicable H shares are subject to a contingent deferred sales charge at rates of between 0.00% and 3.00%. Class C, C2, CD, CT and each applicable H shares are subject to a contingent

deferred sales charge at rates between 0.00% and 1.00% which may be waived in certain circumstances by the dealer.

The Fund compensates its registrar and transfer agent, AllianceBernstein Investor Services, a unit of the Management Company, under a Management Fund Services Agreement for providing personnel and facilities to perform registrar and transfer agency services for the Fund. Such compensation amounted to \$7,364,127 for the year ended May 31, 2018.

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. For the year ended May 31, 2018 such compensation amounted to \$1,155,770 and is included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen, *société anonyme* (of which Mr. Yves Prussen, a director of the Fund and on the Board of Managers of its Management Company, is a partner) for legal services rendered to the Fund. Payments of €54,613 were made for the year ended May 31, 2018 and are included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms.

The total aggregate value of the transactions of the Fund effected through the affiliated firms, Sanford C. Bernstein & Co., LLC and Sanford C. Bernstein Ltd. were \$677,484. Such transactions represent less than 0.01% of total transactions. There was \$315 in commission paid for the year ended May 31, 2018 on securities transactions utilizing the services of the affiliated firms, Sanford C. Bernstein & Co., LLC and Sanford C. Bernstein Ltd. Several of the Fund’s directors are employees and/or officers of the Investment Manager and/or its affiliates.

Global Plus Fixed Income Portfolio and Global Income Portfolio invests in AB FCP I - Mortgage Income Portfolio, a portfolio which is managed by the Management Company. All Market Total Return Portfolio invests in AB FCP I – Global High Yield Portfolio, a portfolio which is managed by the Management Company. RMB Income Plus Portfolio, RMB Income Plus II Portfolio (USD), Diversified Yield Plus Portfolio, Global Plus Fixed Income Portfolio, Global Income Portfolio and Asia Pacific Local Currency Debt Portfolio invest in AB SICAV II – China Bond Portfolio, a portfolio which is managed by the Management Company. Emerging Markets Multi-Asset Portfolio invests in AB SICAV II – China Equity Portfolio, a portfolio which is managed by the Management Company.

NOTE F: Soft Commission Arrangements and Transaction Costs

During the year ended May 31, 2018 the Investment Manager received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received. The soft commission arrangements were entered

into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standards and brokerage rates will not be in excess of customary institutional full-service brokerage rates.

The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services.

The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund's performance. For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees' salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the net realized gains and (losses) on investments and change in unrealized appreciation and (depreciation) on investments in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the year ended May 31, 2018, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

AB SICAV I-	Transaction costs
International Health Care Portfolio	\$ 120,464

NOTE G: Forward Foreign Currency Contracts

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in "Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency" in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of unrealized appreciation/(depreciation) on forward foreign currency contracts.

One or more of a Portfolio's share classes offered in a particular currency (each, an "Offered Currency") may be hedged to such Offered Currency. Any such share class will constitute a "Currency Hedged Share Class". Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio's base currency return by reducing

Financial Credit Portfolio	\$ -

the effect of exchange rate fluctuations between the portfolio's base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs. The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the portfolio's base currency and the Offered Currency. Risks may arise from the potential inability of counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the Net Asset Value of the other share classes of the same portfolio, in which case assets of the other share classes of the portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class. The securities in the Fund are used as collateral for forward foreign currency contracts including those used for share class hedging.

The following table lists the cash collateral held by/owed to broker for forward foreign currency contracts as of May 31, 2018:

NOTE H: Financial Futures Contracts

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund's activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract, the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

Cash held by/owed to broker as of May 31, 2018 is recorded as part of "Cash at depositary and broker" and "Due to depositary and broker" in the Statement of Assets and Liabilities.

NOTE I: Swap Transactions

A swap is an agreement that obliges two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and as a component of “Change in unrealized gains and (losses) on swaps.”

Cash collateral held by/owed to broker in relation to swap contracts is recorded as part of “Cash at depositary and broker” and “Due to depositary and broker” in the Statement of Assets and Liabilities.

Centrally Cleared Credit Default Swaps

The buyer in a centrally cleared credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Centrally Cleared Interest Rate Swaps

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

The following table lists the cash collaterals held by/owed to broker for its centrally cleared swaps as of May 31, 2018:

Total Return Swaps

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

Credit Default Swaps

The buyer in a credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

Inflation Swaps

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

Variance Swaps

Variance swaps are contracts in which two parties agree to exchange cash payments based on the difference between the stated level of variance and the actual variance realized on underlying asset(s) or index(es). Actual “variance” as used here is defined as the sum of the square of the returns on the reference asset(s) or index(es) (which in effect is a measure of its “volatility”) over the length of the contract term. So the parties to a variance swap can be said to exchange actual volatility for a contractually stated rate of volatility.

The following table lists the cash collateral held by/owed to broker for bilateral swap contracts as of May 31, 2018:

NOTE J: Loans of Portfolio Securities

A Portfolio may make secured loans of its securities. The risks in lending securities, as with other extensions of credit, consist of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower’s default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

While securities are on loan, the borrower may pay the Portfolio concerned any income from the securities. The Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

The Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. A Portfolio may pay reasonable finders’, administrative and other fees in connection with a loan.

For making secured loans of its securities, a Portfolio receives gross fee income, of which 20% is paid to securities lending agent for providing securities lending services. For the year ended May 31, 2018, the Portfolios earned a net fee income, as follows:

AB SICAV I-		
International Health Care Portfolio	\$	53,627
International Technology Portfolio	\$	123,965
Global Real Estate Securities Portfolio	\$	1,744
Thematic Research Portfolio	\$	56,420

NOTE K: Bank Facility

The Fund has access to an overdraft facility (the “Facility”), established with the Depository, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

NOTE L: Option Transactions

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the

AB SICAV I-	Value	Collateral Market Value

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option.

Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The following table lists the cash collateral held by/owed to broker for option transactions as of May 31, 2018:

AB SICAV I-		Cash Held by Broker	Cash Owed to Broker
RMB Income Plus Portfolio.			
UBS	CNH	–	1,704,088
RMB Income Plus II Portfolio (USD)			
UBS	\$	–	3,834

In relation to options contracts held by the Portfolios as of May 31, 2018 the following table lists collateral consisting of securities:

Short Duration High Yield Portfolio.....			
Morgan Stanley U.S. Treasury Note, 3.75%, 11/15/18	\$	302,203	–

NOTE M: Co-Management of Assets

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a “pool”. These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets. Where the assets of more than one Portfolio are pooled, the assets attributable to each participating Portfolio will initially be

Asset Pool
RMB Income Plus Pool
AB Global Growth Pool

NOTE N: Incentive Fee

Select Absolute Alpha Portfolio

The Investment Manager will receive from the Portfolio, except class S shares, an amount equal to 20% (10% for class F shares) of the amount by which the Net Asset Value of each of the relevant Shares of the Portfolio at the end of fiscal year (before reduction for the current year’s Incentive Fee and after reduction for the Management Fee) (the “Adjusted NAV”) exceeds the Prior High NAV of such Shares at the end of such fiscal year.

The “Weighted Average Shares” is the total Shares in issue on each day of the relevant fiscal year, including weekends, divided by the total number of days comprising that fiscal year. The Investment Manager will only receive such fee if the Adjusted NAV per Share of a class of Shares is in excess of its Prior High

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium.

A receiver swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

As of May 31, 2018 there was no collateral posted in relation to swaptions.

determined by reference to its initial allocation of assets to such a pool and will change in the event of additional allocations or withdrawals.

The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool. Additional investments made on behalf of the co-managed Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

As of May 31, 2018, the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following pools:

Participating Portfolios
RMB Income Plus Portfolio
RMB Income Plus II Portfolio (USD)
Thematic Research Portfolio

NAV for the relevant Observation Period.

The “Prior High NAV” of a class of shares is the NAV of that respective class (appropriately adjusted for distributions, if any) immediately after giving effect to the last Incentive Fee paid with respect to such class of Shares or if no Incentive Fee has been paid for a period of two consecutive years, the NAV of the Shares (appropriately adjusted for distributions, if any) at the end of the Observation Period.

The Management Company will use a two-year period to determine or reset the Prior High NAV (“Observation Period”). The mechanism applied to determine the term of the Observation Period is the following:

- If at the end of the first fiscal year, an Incentive Fee is accrued and paid for the relevant Class of Shares, then a new Observation Period begins.

- In the absence of Incentive Fee accrued at the end of the first fiscal year, the Observation Period follows through a second fiscal year. At the end of this second fiscal year, if an Incentive Fee is accrued and paid, then a new Observation Period begins.
- In the absence of Incentive Fee accrued at the end of the second fiscal year, a new Observation Period begins regardless of the accrual and payment or not of Incentive Fee.

The Incentive Fee, if applicable, is payable yearly following the end of each fiscal year.

If the class of Shares of the Portfolio that is charged Incentive Fees is redeemed other than as of the end of a fiscal year, an Incentive Fee with respect to such Shares will be determined for such partial fiscal year and paid as of such date. The Prior High NAV is not reset on those Dealing Days at which Incentive Fees crystallise following the redemption of Shares.

Based on the incentive fee calculation methodology used, the Portfolio may have to pay an incentive fee even if it has not fully recovered from a decrease in the Net Assets attributable to the relevant class of Shares, as the case may be (as adjusted by subscriptions, redemptions, dividends and other distributions), from a prior fiscal year.

For the calculation of Incentive Fees with respect to H Shares, the Management Company will exclude the impact of currency hedging activity. Therefore an Incentive Fee may be accrued and paid with respect to H Shares when after the effects of hedging activity, the NAV of such H shares exceeds the Prior High NAV for the relevant Observation Period (as adjusted for currency gains or losses).

As of May 31, 2018 incentive fees payable by Select Absolute Alpha Portfolio was \$12,366,367. This is included within the line item "Accrued expenses and other liabilities" in the Statement of Assets and Liabilities.

NOTE O: Subsequent Events

On May 23, 2018, it was resolved by the Board of Directors to liquidate the portfolio AB SICAV I – RMB Income Plus II Portfolio (USD), effective June 26, 2018.

Effective June 1, 2018, in respect of Class W shares of AB SICAV I – Select US Equity Portfolio, the Management Fee will be lowered from 0.80% to 0.20% and the threshold upon which the Management Company voluntarily undertakes to deduct (or otherwise bear) from its Class W shares aggregate fees and expenses, will be lowered from 1.10% to 0.40%.

Effective June 1, 2018, in respect of Class W shares of AB SICAV I – Select US Equity Portfolio, an Incentive Fee will become payable to the Investment Manager, AllianceBernstein L.P., only if during any fiscal year Class W shares performance exceeds the performance of the S&P 500 Index in which case the Investment Manager will earn 25% of such outperformance.

* Unaudited. Calculated in accordance with AICPA guidelines. Average market value of securities for the year is calculated based on month end valuation.

To the Shareholders of AB SICAV I

Opinion

We have audited the financial statements of AB SICAV I and of each of its portfolios (the "Fund"), which comprise the statement of assets and liabilities and the portfolio of investments as at May 31, 2018, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its portfolios as at May 31, 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (the "Law of July 23, 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under those Law and standards are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board

of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

BNP Paribas Securities Services, Paris, succursale de Zurich, was authorized by the Swiss Financial Market Supervisory Authority FINMA as Swiss representative of the Fund, and also acts as paying agent. The prospectus, KIIDs, the articles of incorporations of the Fund, the annual and semi-annual reports, as well as the list of the purchases and sales which the Fund has undertaken during the financial year, may be obtained, on simple request and free of charge, at the head office of the Swiss representative, BNP Paribas Securities Services, Paris, succursale de Zurich, Selnaustrasse 16, CH-8002 Zürich, Switzerland.

The Fund's publications in Switzerland are on www.fundinfo.com. The issue and redemption prices of the Shares of the Fund, respectively the Net Asset Value per Share (with the mention "excluding commissions"), are published jointly and on a daily basis on www.fundinfo.com.

Please note that with effect from September 24, 2008, the International Health Care Portfolio is no longer available for investment by CPF members using CPF monies. This Portfolio will however continue to be subject to the investment guidelines issued by the Singapore CPF Board (the "CPF Investment Guidelines"), as the same may be modified, amended, re-enacted or reconstituted from time to time by the CPF Board.

The Net Asset Value of the Portfolios of the Fund are published on a daily basis at www.alliancebernstein.com

The KIIDs of the Fund are made available at www.alliancebernstein.com/go/kiid.

Notice to Shareholders

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the "Mémorial") and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

Changes in the Investment Portfolio

Changes in the Portfolio of Investments during the reporting year are available free of charge to the Shareholders at the registered office of the Management Company.

Controversial Weapons Policy

The Management Company arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with depleted uranium. Where such corporate involvement has been verified, the Management Company's policy is not to permit investment in securities issued by such companies by the Fund.

Value at Risk

For UCITS the Value at Risk (VaR) can be measured on an absolute or a relative basis. VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets. The Investment Manager monitored the total global exposure (market risk) of the equity Portfolios for the year ended

May 31, 2018 utilizing the VaR calculated on a relative basis (pursuant to which the VaR of the relevant Portfolio may not exceed twice the VaR of the relevant reference benchmark). During the aforementioned year the low, high and average VaR of the Portfolios measured on a relative basis were as follows:

Portfolio	Benchmark	Low	High	Average
International Health Care Portfolio	MSCI World Healthcare	4.95%	9.09%	6.70%
International Technology Portfolio	MSCI World Information Technology	9.31%	13.65%	11.49%
Global Real Estate Securities Portfolio	FTSE EPRA/NAREIT Global Real Estate Index USD	3.89%	9.62%	7.87%
Thematic Research Portfolio	MSCI AC World	4.22%	9.92%	6.36%
India Growth Portfolio	Bombay Stock Exchange 200 Index	10.56%	15.46%	12.23%
US Small and Mid-Cap Portfolio	Russell 2500	7.26%	12.70%	9.69%
Emerging Markets Multi-Asset Portfolio	MSCI Emerging Markets	5.03%	10.40%	7.89%
Select US Equity Portfolio	S&P 500	5.35%	10.92%	7.26%
Low Volatility Equity Portfolio	MSCI World Unhedged	3.04%	10.88%	5.45%
Emerging Markets Equity Portfolio	MSCI Emerging Markets Index Cap Weighted	5.34%	11.13%	8.57%
Global Equity Income Portfolio	MSCI ACWI (unhedged)	3.28%	10.03%	5.76%

All Market Total Return Portfolio	1.48%	6.40%	4.13%
Alternative Risk Premia Portfolio	1.47%	3.23%	2.26%

Leverage

For the Portfolios listed below, the Investment Manager does not expect to utilize bank borrowing in implementing the Portfolios' investment strategy.

The expected level of leverage is calculated as the sum of the notionals of the financial derivative instruments held by the Portfolio. Pursuant to the CSSF Circular 11/512 dated May 30, 2011, this calculation methodology neither takes into account the fact that a particular financial derivative instrument increases or decreases the Portfolio's investment risks nor permits to net financial derivative instruments with reverse positions.

Shareholders should be aware that (i) a higher level of expected leverage does not automatically imply a higher level of investment risk and (ii) the expected level of leverage disclosed above is mainly generated by the use of derivatives for hedging purposes or for efficient portfolio management. In addition, the actual leverage of the Portfolio may deviate from the below mentioned expected level of leverage:

- International Health Care Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- International Technology Portfolio
0%-50% range of the Net Asset Value of the Portfolio
- Global Real Estate Securities Portfolio:
0%-50% range of the Net Asset Value of the Portfolio

Emerging Markets Equity Portfolio	10.95%
Diversified Yield Plus Portfolio	186.97%
Global Equity Income Portfolio	32.70%

Remuneration

From January 1, 2017 until December 31, 2017 (the “Reference Period”), the total amount of remuneration paid – in cash and/or restricted securities - by AllianceBernstein (Luxembourg) S.à r.l. (“the Company”) to its entire staff (composed during the Reference Period in average of 43 employees, including its branch) was EUR 3.76 million.

In particular, during the Reference Period, the total amount of remuneration mentioned above was split into fixed and variable remuneration as follows:

- Fixed remuneration: EUR 3,244,931
- Variable remuneration: EUR 511,694

No fees based on the performance of the Fund or carried interest are used to remunerate employees of the Company. During the Reference Period, no remuneration was paid by the Company to the identified staff of the Investment Manager.

The total amount of remuneration paid to senior management and members of staff of the Company whose actions have a

PEA Eligibility (Plan d’Epargne en Actions)

The Plan d’Epargne en Actions (“PEA”) is a French tax savings plan that allows French residents to benefit from certain tax exemptions for investing in European equities. A PEA eligible fund must permanently invest at least 75% of its net assets in

Portfolio	Leverage
Global Factor Portfolio	0.09%
Multi-Sector Credit Portfolio	74.93%
Asia Income Opportunities Portfolio	23.84%
Global Income Portfolio	193.91%
Emerging Market Debt Total Return Portfolio	230.00%
All Market Total Return Portfolio	129.64%
Alternative Risk Premia Portfolio	313.04%
European Equity Portfolio	26.62%
Eurozone Equity Portfolio	4.21%
American Growth Portfolio	0.00%
All Market Income Portfolio	142.92%

For the Portfolios listed below the Investment Manager used the commitment approach pursuant to the CSSF Circular 11/512 dated May 30, 2011 to monitor global exposure (market risk) resulting from the use of financial derivative instruments. Consequently, the net derivatives exposure created by derivative transactions combined with cash and other assets will closely approximate the NAV of the Portfolio.

As a result of using the commitment approach, the average leverage of the Portfolios for the year ended May 31, 2018 was:

Portfolio	Leverage
Concentrated US Equity Portfolio	0.00%
Concentrated Global Equity Portfolio	2.16%
Global Core Equity Portfolio	0.00%
AB ESG Responsible Global Factor Portfolio	0.00%
Asia Low Volatility Equity Portfolio	0.00%
All China Equity Portfolio	0.00%
Financial Credit Portfolio	0.15%

material impact on the risk profile of the Company or falling within the remuneration bracket of senior management and risk takers during the Reference Period was EUR 1,472,960.

Please note that above figures are provided for all services provided by the Company and they do not represent a breakdown at the level of the Fund.

Detailed information relating to – amongst others - the financial and non-financial criteria of the remuneration policies and practices, on decision-making process used to determine the remuneration policy, and on how pay and performance are linked are available in the Remuneration Statement published on AB Global website at the following address: www.alliancebernstein.com/go/remuneration_policy.

Over the Reference Period, a review of the Remuneration Policy and of its implementation has been carried out and it did not evidence any irregularity. Finally, no material change on the Remuneration Policy as it was initially designed occurred over the Reference Period.

PEA eligible equity-related securities (excluding convertible bonds) of companies established in a European Union Member State or in Iceland and Norway and subject to corporate income, or an equivalent, tax.

Through the year ended May 31, 2018, the following Portfolio invested primarily in PEA eligible equity - related securities, with the daily average percentage of investment in such securities as follows:

Portfolio	Daily Average (%)
Eurozone Equity Portfolio	96.03%

Securities Financing Transaction Regulation

The Securities Financing Transaction Regulation (“the SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and total return swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

During the year ended May 31, 2018, the Fund had entered into securities lending and total return swaps (TRS) as type of instrument in scope of the SFTR.

Global Data

The amount of assets across all SFTs and total return swaps as at May 31, 2018 is as follows:
